J & L Tumbler

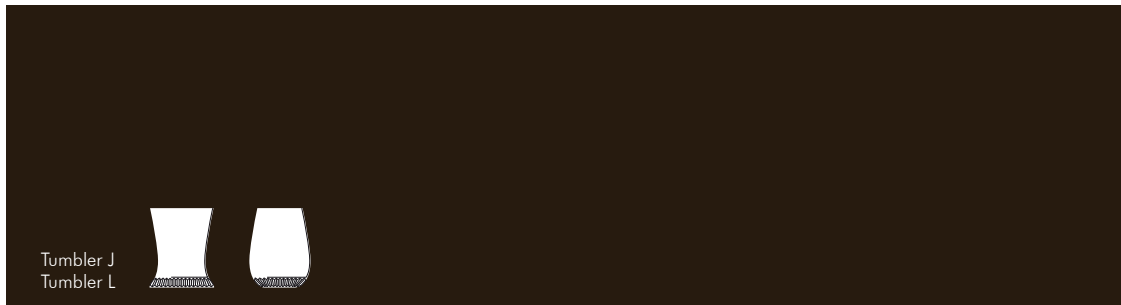

design: BCXSY (Boaz Cohen and Sayaka Yamamoto), 2014

"Incredible care and attention are put into the smallest details at Lobmeyr, yet at the same time many of the pieces are intended for everyday use – encouraging us to (re)discover the joy of our daily rituals." With this in mind, BCXSY, Boaz Cohen and Sayaka Yamamoto, created the J(oy) & L(ove) Tumblers*. The design process started by diving into the exquisite Lobmeyr archives, paying a special attention to the classic Biedermeier friendship tumbler, and continued with the exploration of various decorative methods, including stone-wheel-cutting, engraving and sand-blasting. The result is a set of matching tumblers, destined for two people sharing a special moment together.
