Table lamp 42453-A-1 - "Captured"

The Traditional Family

Light refracted by crystal. Capturing the natural game of those two elements into a fascinating object has been the vision of this cooperation. A minimal, elegant and strong metal structure, typical for Michael Anastassiades' work, gives hold and position to precious crystal parts refined by Lobmeyr.

The central glass sphere cut in alternative ways guards the light source and refracts the light. Two hemispheres of different larger diameters indicate further orbits. Light, shade and the game with geometry and space make these exciting objects.

Design: Michael Anastassiades, 2012

Material: Brass, Hand-cut crystal; Finish: Silver

Special requests: Different heights and finishes, custom cuts for central sphere and decoration for hemispheres.

Dia.: 23 cm, H.: 55 cm; Weight: 3 kg

Lights: 1 Halogen G4 ; Max. Wattage: 20W
